

Open Access Journal

International Journal of Applied Mathematics (IJAM) is Open Access (OA) journal. Open Access journals are scholarly journals that are available on-line to the reader - without any limitations for download full text of all published articles, and allowing authors to use and expose their papers freely. Minor Article Processing Charges (APC) may apply for authors or their supporting organizations to cover: maintaining journal's website <https://ijamjournal.org/ijam/> and Publisher's server, price for DOIs numbers, printing hardcopy issues for some basic libraries, etc. While all other expenses, including handling and reviewing the articles, editing and proofreading, etc. are covered exclusively by the Publisher.
